

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 1/8

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Zinc peroxide nanoparticles coated with myristate ligands

Product number: ZnO₂-MA-S

Chemical name: Zinc peroxide [CAS: 1314-22-3, WE: 215-226-7]

The registration number: Not applicable. The substance does not exceed imports/production above 1 tonne per year (Article 6 (1) of Regulation 1907/2006 (REACH)).

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Used for scientific research and development.

Uses advised against: Not specified.

1.3. Details of the supplier of the safety data sheet

Supplier: NANOXO sp. z o.o.

Address: Poland; PL 01-224 Warszawa; Marcina Kasprzaka 44/52 Street

Telephone: +48 22 378 48 30

E-mail address of the person responsible for the SDS: info@nanoxo.eu

1.4. Emergency telephone number

112 (emergency call)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation 1272/2008/EC:

Ox. Sol. 1; H271

Skin Irrit. 2; H315

Eye Irrit. 2; H319

Hazards to man: Causes skin irritation. Causes serious eye irritation.

Hazards to environment: Does not meet the criteria of classification as dangerous for the environment.

Hazard from physical and chemical properties: May cause fire or explosion; strong oxidiser.

In section 16 stated the importance of H-phrases and symbols.

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 2/8

2.2. Label elements
Label accordance with Regulation 1272/2008/EC (CLP)
Hazard pictograms, signal words:

Danger
Hazard statements:

H271 - May cause fire or explosion; strong oxidiser.

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

Precautionary statements:

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P220 - Keep away from clothing and other combustible materials.

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

P302+P352 - IF ON SKIN: Wash with plenty of water.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P306+P360 - IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes.

P420 - Store separately.

The names of hazardous ingredients on the label: Zinc peroxide.

2.3. Other hazards

The product does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation 1907/2006 (REACH).

SECTION 3: Composition/information on ingredients
3.1. Substances
Nanomaterial:

Substance name:	Zinc peroxide*
Concentration [%]:	≤100
CAS Number:	1314-22-3
EC Number:	215-226-7
Index Number:	-
Classification 1272/2008/EC:	Ox. Sol. 1; H271 Skin Irrit. 2; H315 Eye Irrit. 2; H319

*Substance is not classified in Annex VI, Table 3.1 of Regulation 1272/2008. Classification in accordance with ECHA notification.

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 3/8

In section 16 stated the importance of H-phrases and symbols.

The product does not contain impurities or additives that could affect product's labelling and classification according to Regulation No 1272/2008/EC (CLP) in the concentration ranges specified.

3.2. Mixtures

Not applicable.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation: Move affected person to fresh air and keep at rest. In case of alarming symptoms, seek medical advice.

Skin contact: Remove all contaminated clothing. Wash contaminated skin with water. In case of alarming symptoms, seek medical advice.

Eye contact: Remove any contact lenses. Flush eyes with a plenty of water, occasionally lifting the upper and lower eyelids. Continue to rinse for at least 15 minutes. In case of alarming symptoms, seek medical advice.

Ingestion: Seek medical advice.

4.2. Most important symptoms and effects, both acute and delayed

Skin contact: Causes skin irritation.

Eye contact: Causes serious eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

Remove affected person from the environment contaminated by the product. In the event of health problems, consult your doctor or the center of toxicological concern. Provide the information contained in the SDS. If unconscious, do not give anything by mouth.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Extinguishing media should be adapted to surrounding objects.

Unsuitable extinguishing media: Not specified.

5.2. Special hazards arising from the substance or mixture

In case of fire: evacuate the area. Due to the risk of explosion, extinguish fire from distance. May cause fire or explosion; strong oxidiser. In case of fire, irritating and hazardous products may be formed: e.g. carbon oxide, zinc oxide. Avoid inhalation of combustion products, because they may pose a health risk.

5.3. Advice for firefighters

Wear full protective equipment and self-contained breathing apparatus with independent air circulation. Containers exposed to fire or high temperature cool with water and if possible, remove from the danger zone. Protect drains, surface waters and soil from pollution. Water from fire treated as hazardous pollution and accumulate in separate containers.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Access of non-emergency personnel to the area of accident should be restricted until the completion of the disposal of the product. Wear

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 4/8

appropriate personal protective equipment. Avoid sources of ignition. Avoid contact with eyes and skin.

For emergency responders: Wear appropriate personal protective equipment. Avoid sources of ignition. Avoid contact with eyes and skin.

6.2. Environmental precautions

Secure the gullies. Prevent contamination of surface water and ground. In the event of any serious pollution of the environment, notify the appropriate administrative authority, control and rescue services. The used containers should be disposed by delivering to eligible organizations.

6.3. Methods and material for containment and cleaning up

Secure damaged packaging. Collected product put in a substitute container and direct to the destruction or re-use.

6.4. Reference to other sections

Disposal - see Section 13. Personal protective equipment - see Section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Do not eat, drink, smoke or take drugs at work. Wash hands before breaks and after working with the product. Wear appropriate personal protective equipment. Take off contaminated clothing and wash before reuse. Ensure adequate ventilation at the workplace with the product.

7.2. Conditions for safe storage, including any incompatibilities

Keep in properly labeled, factory sealed containers, with a label which complies with current regulations. Store in tightly closed containers. Store in a dry, cool and well-ventilated storage room. Avoid direct sunlight. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep away from clothing and other combustible materials.

7.3. Specific end use(s)

Used for scientific research and development.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Not specified.

Legal basis: Ordinance on maximum permissible concentration and intensity of harmful factors in the work environment in accordance with national limit values.

EH40/2005 Workplace exposure limits, fourth edition, published 2020, ISBN 978 0 7176 6733 8.

Monitoring procedures: Use methods described in European Standards.

8.2. Exposure controls

Mandatory general regulations on occupational health. Do not allow to exceed the normative concentrations of hazardous constituents in the workplace. After work, wash the body surface and clean the personal protective equipment. Do not eat, drink, smoke or take drugs at work. Wash hands and face during breaks and after working with the product.

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 5/8

Eye / face protection: Wear suitable protective goggles (in accordance with EN 166).

Skin Protection: Wear suitable protective gloves (in accordance with EN 374). Wear fire-resistant or flame-retardant clothing.

Respiratory protection: Usually is not required.

Thermal Hazards: Wear fire-resistant or flame-retardant clothing.

Used personal protective equipment should meet the requirements of local/regional/national laws. The employer must provide personal protective equipment appropriate to the type of work and in accordance with all requirements, including maintenance and cleaning.

Concentrations of hazardous substances in the workplace should be monitored in accordance with acknowledged test methods. Mode, method, type and frequency of testing and measurement of harmful factors in the working environment should meet the requirements of local/regional/national laws.

Environmental exposure controls: The large amount of product should not be allowed to penetrate through the ground water, sewage, waste water or soil.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance:	White powder Nanomaterial in the form of a quantum dot
Odour:	Not applicable
Odour threshold:	Not applicable
pH:	Not applicable
Melting point/freezing point:	Not applicable
Initial boiling point and boiling range:	Not applicable
Flash point:	Not applicable
Evaporation rate:	Not applicable
Flammability (solid, gas):	Not applicable
Upper/lower flammability or explosive limits:	Not applicable
Vapour pressure:	Not applicable
Vapour density:	Not applicable
Relative density:	Not applicable
Solubility(ies):	According to the instructions
Partition coefficient: n-octanol/water:	Not applicable
Auto-ignition temperature:	Not applicable
Decomposition temperature:	Not applicable
Viscosity:	Not applicable
Explosive properties:	Not applicable
Oxidising properties:	Not applicable

9.2. Other information

Not applicable.

SECTION 10: Stability and reactivity

10.1. Reactivity

Not reactive under normal conditions of use and storage.

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 6/8

10.2. Chemical stability

Stable under normal conditions of storage.

10.3. Possibility of hazardous reactions

Not applicable.

10.4. Conditions to avoid

Not applicable.

10.5. Incompatible materials

Flammable substances.

10.6. Hazardous decomposition products

None under normal conditions of use and storage.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Based on available data, the classification criteria are not met.

Skin corrosion/irritation: Causes skin irritation.

Serious eye damage/irritation: Causes serious eye irritation.

Respiratory or skin sensitization: Based on available data, the classification criteria are not met.

Germ cell mutagenicity: Based on available data, the classification criteria are not met.

Carcinogenicity: Based on available data, the classification criteria are not met.

Reproductive toxicity: Based on available data, the classification criteria are not met.

STOT - single exposure: Based on available data, the classification criteria are not met.

STOT - repeated exposure: Based on available data, the classification criteria are not met.

Aspiration hazard: Based on available data, the classification criteria are not met.

Inhalation: Usually does not cause adverse health effects.

Skin contact: Causes skin irritation.

Eye contact: Causes serious eye irritation.

Ingestion: Usually does not cause adverse health effects.

SECTION 12: Ecological information

12.1. Toxicity

Does not meet the criteria of classification as dangerous for the environment.

12.2. Persistence and degradability

Not specified.

12.3. Bioaccumulative potential

Not specified.

12.4. Mobility in soil

Not applicable.

12.5. Results of PBT and vPvB assessment

Not applicable.

12.6. Other adverse effects

Not specified.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

During removal of waste comply with the regional / national laws.

Community legislation:

- Directive **2008/98/EC** of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives as amended.

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Zinc peroxide nanoparticles coated with myristate ligands

Date: 01.09.2020

Revision: -

Page/pages: 7/8

- European Parliament and Council Directive **94/62/EC** of 20 December 1994 on packaging and packaging waste as amended.

Disposal methods for the product: Do not introduce into the environment. Disposal in accordance with the local/national legislation. Contaminated packaging disposed of as hazardous waste.

Disposal methods for used packing: Empty containers give for appropriate rubbish dump or for disposal in accordance with the local/national legislation. Dispose of uncleanable containers like of the product.

Waste code is assigned depending on the source of their creation, the end user should taking into account the specific conditions of use of the product, define waste and assign the appropriate code in accordance with current regulations.

SECTION 14: Transport information

14.1. UN number

UN 1516

14.2. UN proper shipping name

ZINC PEROXIDE

14.3. Transport hazard class(es)

5.1

14.4. Packing group

II

14.5. Environmental hazards

Not specified.

14.6. Special precautions for user

During cargo handling use personal protective equipment - see Section 8. Avoid sources of ignition.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Not specified.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC as amended.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 as amended.

Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives as amended.

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste as amended.

SAFETY DATA SHEET

In accordance with the criteria of Regulation No 1907/2006 (REACH) as amended

Revision: -

Page/pages: 8/8

Commission directive 2000/39/EC of 8 June 2000 establishing a first list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

Commission directive 2006/15/EC of 7 February 2006 establishing a second list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Directives 91/322/EEC and 2000/39/EC.

Commission directive 2009/161/EU of 17 December 2009 establishing a third list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Commission Directive 2000/39/EC.

Commission directive (EU) 2017/164 of 31 January 2017 establishing a fourth list of indicative occupational exposure limit values pursuant to Council Directive 98/24/EC, and amending Commission Directives 91/322/EEC, 2000/39/EC and 2009/161/EU.

15.2. Chemical safety assessment

The Chemical Safety Assessment has not been performed for the substance.

SECTION 16: Other information

The full text of H-statements from Sections 2 and 3:

H271 - May cause fire or explosion; strong oxidiser.

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

Key to abbreviations and acronyms:

BLV - Biological Limit Value.

Eye Irrit. 2 - Serious eye damage/eye irritation, Hazard Category 2.

Ox. Sol. 1 - Oxidising Solids, Hazard Category 1.

Skin Irrit. 2 - Skin corrosion/irritation, Hazard Category 2.

STEL - Short-Term Exposure Limit.

TWA - Time Weighted Average.

Training advice: Before use read the SDS.

Sources of key data:

Information provided electronically.

Database of the European Chemicals Agency (ECHA).

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are also treated as aid to safety in transport, storage and usage of the product. This does not free the user from the responsibility of improper usage of the information above also of improper compliance with the law norms in the field.
